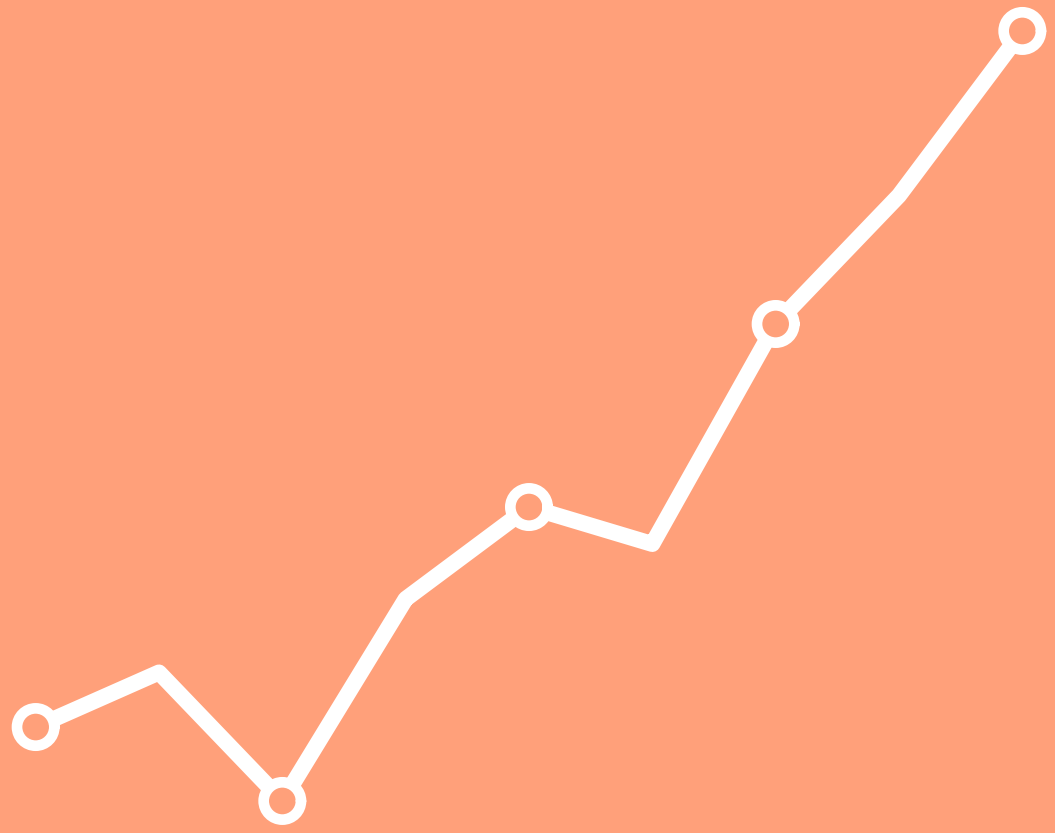
Thyme Inn

Financial analyst

Forecasting, valuation and risk modelling



you@example.com

About me

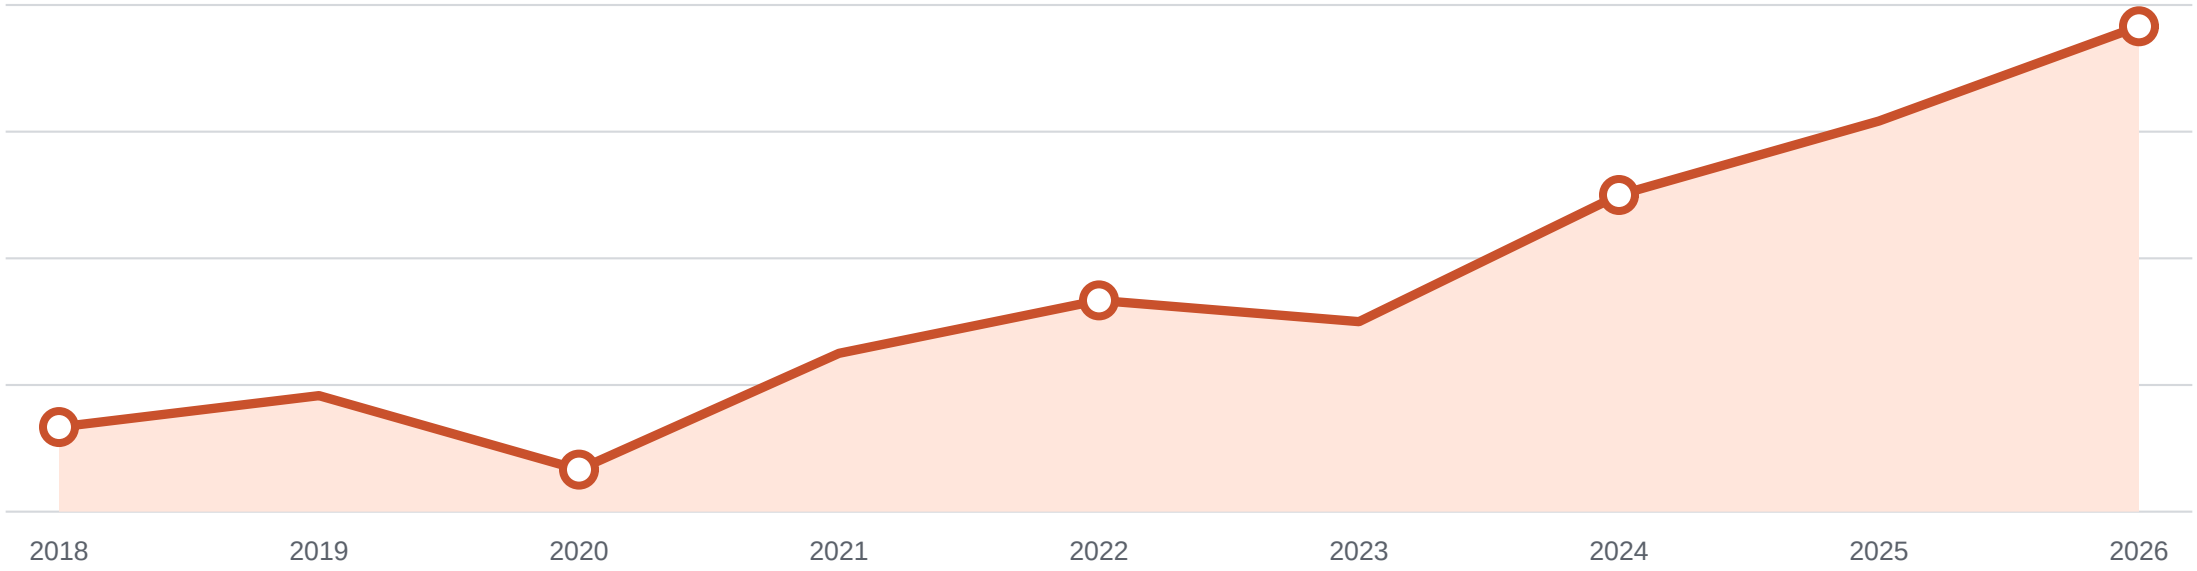
Financial analyst with eight years across equity research, FP&A and risk modelling. I build forecasts that finance teams trust and explain them in plain language. Open to analyst and associate roles in corporate finance and portfolio strategy.

8 years
in finance and analysis

+18%
forecast accuracy at Harbor Group

$2.4M
annual vendor savings

Career so far



2018
Junior analyst at Northbridge Capital

2020
Moved into risk modelling during the downturn

2022
Promoted to senior analyst; passed CFA Level II

2024
Led the forecasting rebuild at Harbor Group

2026
Associate director, portfolio strategy

Selected work

2025

Rolling revenue forecast

Replaced a quarterly spreadsheet process with a driver-based model that finance and sales both update.

+18%
forecast accuracy

2024

Vendor spend review

Mapped three years of payables, flagged duplicate contracts and renegotiated the largest five suppliers.

$2.4M
annual savings

2023

Month-end close automation

Scripted reconciliations and variance commentary in Python so the team reviews exceptions, not every line.

-32%
days to close

2021

Sector coverage initiation

Built valuation models and wrote initiating reports for consumer and industrial names.
